

WORKSHOP MONDAY 29 OCT 2018

GENERIC COMPONENTS OF THE E-SCIENCE INFRA ECOSYSTEM

eScience 2018

WELCOME TO THE GENERIC COMPONENTS WS

09.00 – 10.30 Building software as an infrastructure

- Oxana Smirnova - Sustainable software as an infrastructure
- Radu Popescu - An infrastructure for file distribution
- Dennis van Dok - SoftDrive.nl: user managed software distribution

11.00 – 12.30 Building the Components

- Massimo Lamanna - Collaborative analysis at a global scale
- Tibor Simko - Reproducible data, reproduceable analysis
- Jaroslava Schovancová - Getting researchers to data from the lake

Lunch

13.30 – 15.00 Scaling the services for the next decade

WELCOME TO THE GENERIC COMPONENTS WS

After lunch:

13.30 – 15.00 Scaling the services for the next decade

- Martin Brandt – Building next decade's infrastructure: by yourself, federated, or public in the HNSciCloud
- Maurice Bouwhuis – Infrastructures for Research: the science of deployability and operations
- *Closing discussion – ensuring our eScience infrastructure in the next decades?*
