## **DigitalTrust & IGTF**

# DIGITALTRUST & IGTF

---

- Ankabut in the UAE
  - The Ankabut Project is the UAE Advance Network for Research and Education
  - Founded in August 2006 by Khalifa University, Institute of Applied Technology, United Arab Emirates University, Zayed University and Higher Colleges of Technology
  - Currently has 26 Universities as participating members
  - Ankabut to provide members access to National Grid Initiatives and also EGI participation
- DigitalTrust (previously DarkMatter Trust Services) primarily sought IGTF Accreditation so it would be in a position to provide Ankabut services needed to participate in target initiatives
  - Potentially not required for national grid initiatives but why not kill two birds with one stone?
  - Today Ankabut internally is primarily using a lower level of authentication than certificates
- DigitalTrust is open to providing certificate services to other national grid communities
  - Today, Public Trust grid certs are only issued within UAE
  - IGTF or Private Trust grid certs can be issued globally if desired by contract of appropriate RA
  - Public Trust grid certs can be facilitated for any global location

# DIGITALTRUST & IGTF

---

- DigitalTrust is currently IGTF accredited for 3 Classic CAs
  - Public Trust Originally audited QV CP/CPS operated with DT RAs, now audited under DT CP/CPS & RAs
    - DarkMatter Assured CA (Grid Client)
    - DarkMatter Secure CA (Grid Host)
  - IGTF Trust Only (Private Trust) audited under DT CP/CPS & RAs
    - DarkMatter Private Root CA G4 (Private Root)
    - DarkMatter IGTF CA (Grid Host and Grid Client)
- Introducing **New** IGTF Options for DigitalTrust
  - Two **New** Global public trust CAs to be introduced soon...
  - **New** IGTF Trust Only hierarchy being submitted for accreditation now

# New DIGITALTRUST IGTF Public Trust Anchors

---

- DigitalTrust is seeking to add to its' currently IGTF accredited Public Trust Classic CAs
  - Public Trust via QV subCAs now operated and audited under DT CP/CPS & RAs have limited ubiquity due to Google & Microsoft decisions to distrust. Subs are still trusted in Mozilla and Apple. NOTE: Mozilla has notified of intended distrust action also, but on hold currently due to DigitalTrust's appeal.
    - The two existing DarkMatter subCAs (1 for Grid Client, 1 for Grid Host) will be superseded with two DigitalTrust subCAs (1 for Grid Client, 1 for Grid Host) that will be publicly trusted via cross-sign and operated by trust partner.
    - DigitalTrust will operate as a Grid RA for the purpose of Grid cert issuance, and is currently undergoing new WebTrust for RAs Audit as part of current audit expected to be completed this month.
    - Expect the new public trust subCAs to be available in Q3 2019 (next month)
    - The CA operations will be WebTrust audited to BRs & CA
    - We are seeking to prime the pump now for review of these subs as soon as they are available.

# New DIGITALTRUST IGTF Trust Anchors

---

- DigitalTrust is seeking to add to its' currently private trust IGTF accredited Classic CAs
  - IGTF Trust Only (Private Trust) audited under DT CP/CPS & RAs currently has the following HLCA & Classic CA
    - DarkMatter Private Root CA G4 (Private Root)
    - DarkMatter IGTF CA (Grid Host and Grid Client)
  - DigitalTrust wishes to introduce and accredit the following **New** HLCA & Classic CA also operated under the DT CP/CPS & RAs
    - **DigitalTrust Private Root CA G4** (Private Root) [**HLCA**]
    - **DigitalTrust IGTF CA** (Grid Host and Grid Client) [**Classic CA**]
  - Same infrastructure, same policies, same procedures, same trusted personnel, just a new hierarchy
  - In part to transition completely to the DigitalTrust namespace, eventually the DarkMatter hierarchy will be retired

## DIGITALTRUST

### DigitalTrust PKI Services Grid Repository

DigitalTrust is an accredited IGTF Certification Authority via [EUGridPMA](#).  
DigitalTrust operates the DarkMatter Grid CAs, and is now seeking further accreditation of new DigitalTrust Grid CAs.

In June 2016, DarkMatter/DigitalTrust launched its PKI Services when it created a number of Trust Anchors (root and sub CAs) for the provisioning of certificates. DigitalTrust has two different hierarchies for the issuance of IGTF accredited grid certificates - one hierarchy that operates only within the IGTF (there are two chains, one for DarkMatter IGTF CA - already accredited, and an additional one accreditation is currently being sought for - DigitalTrust IGTF CA), and another hierarchy that chains to publicly trusted Root CAs (this hierarchy is already accredited since January 2017).

DigitalTrust is currently seeking the accreditation of the Private Trust IGTF ONLY hierarchy for the DigitalTrust IGTF CA.

#### DigitalTrust/DarkMatter Grid Public Trust CAs

##### Host Hierarchy

- **QuoVadis Root CA 2 G3** Off-line publicly trusted Root that signs subordinate CAs. This Root is intended to be Trusted for Host Certificates as part of the IGTF Classic distribution.  
CA Certificate: [QuoVadis Root CA 2 G3.cer](#) | [QuoVadis Root CA 2 G3.der](#) | [1f58a078.0](#)  
Signing Policy: [QuoVadisRootCA2G3.signing\\_policy](#) | [1f58a078.signing\\_policy](#)  
Namespace: [QuoVadisRootCA2G3.namespaces](#) | [1f58a078.namespaces](#)  
Certificate Revocation List: [DER format \(QuoVadisRootCA2G3.crl\)](#)  
CA.info Link: [QuoVadisRootCA2G3.info](#) | [1f58a078.info](#)  
CA.crl\_url Link: [QuoVadisRootCA2G3.crl\\_url](#)  
CA Text Link: [QuoVadisRootCA2G3.txt](#)
- **DarkMatter Secure CA** On-line Subordinate CA to provide long-term user, host and service certificates. This sub-CA is Accredited as part of the IGTF Classic distribution.  
CA Certificate: [DarkMatterSecureCA.cer](#) | [DarkMatterSecureCA.der](#) | [a69c3a14.0](#)  
Signing Policy: [DarkMatterSecureCA.signing\\_policy](#) | [a69c3a14.signing\\_policy](#)  
Namespace: [DarkMatterSecureCA.namespaces](#) | [a69c3a14.namespaces](#)  
Certificate Revocation List: [DER format \(DarkMatterSecureCA.crl\)](#)  
CA.info Link: [DarkMatterSecureCA.info](#) | [a69c3a14.info](#)  
CA.crl\_url Link: [DarkMatterSecureCA.crl\\_url](#)  
CA Text Link: [DarkMatterSecureCA.txt](#)

##### Client Hierarchy

- **QuoVadis Root CA 3 G3** Off-line publicly trusted Root that signs subordinate CAs. This Root is intended to be Trusted for Client Certificates as part of the IGTF Classic distribution.  
CA Certificate: [QuoVadis Root CA 3 G3.cer](#) | [QuoVadis Root CA 3 G3.der](#) | [e442e424.0](#)  
Signing Policy: [QuoVadisRootCA3G3.signing\\_policy](#) | [e442e424.signing\\_policy](#)  
Namespace: [QuoVadisRootCA3G3.namespaces](#) | [e442e424.namespaces](#)  
Certificate Revocation List: [DER format \(QuoVadisRootCA3G3.crl\)](#)

## DigitalTrust Grid Private Trust CAs

### IGTF Only Trust Hierarchy - Host, robot and client

- **DigitalTrust Private Root CA G4** Off-line private trusted Root that signs subordinate CAs. This Root is intended to be Trusted for Host, Robot and Client Certificates as part of the IGTF Classic distribution.  
CA Certificate: [DigitalTrust Private Root CA G4.cer](#) | [DigitalTrust Private Root CA G4.crt](#) | [d58bb4bc.0](#)  
Signing Policy: [DigitalTrustPrivateRootCAG4.signing\\_policy](#) | [d58bb4bc.signing\\_policy](#)  
Namespace: [DigitalTrustPrivateRootCAG4.namespaces](#) | [d58bb4bc.namespaces](#)  
Certificate Revocation List: [DER format \(DigitalTrustPrivateRootCAG4.crl\)](#)  
CA.info Link: [DigitalTrustPrivateRootCAG4.info](#) | [d58bb4bc.info](#)  
CA.crl\_url Link: [DigitalTrustPrivateRootCAG4.crl\\_url](#)  
CA Text Link: [DigitalTrustPrivateRootCAG4.txt](#)
- **DigitalTrust IGTF CA** On-line Subordinate CA to provide long-term user, host and service certificates. This sub-CA is Accredited as part of the IGTF Classic distribution.  
CA Certificate: [DigitalTrustIGTFCA.cer](#) | [DigitalTrustIGTFCA.crt](#) | [7f23888f.0](#)  
Signing Policy: [DigitalTrustIGTFCA.signing\\_policy](#) | [7f23888f.signing\\_policy](#)  
Namespace: [DigitalTrustIGTFCA.namespaces](#) | [7f23888f.namespaces](#)  
Certificate Revocation List: [DER format \(DigitalTrustIGTFCA.crl\)](#)
