**Wednesday, 21 October 2020 - Wednesday, 21 October 2020**

**Virtual**

## **Scientific Programme**

## **Update of the Nikhef strategy**

Current strategy has been written in 2017. This is a mid-term internal review.

Is the strategy still adequate and do we need modifications?

The European Strategy for Particle Physics has become public in May 2020.

Review the consequences for Nikhef – and positioning as National Lab. In this discussion the APPEC roadmap/strategy and CAN roadmap serve as input as well.

The Einstein Telescope attracts a lot of momentum.

What is the balance of ET activities at Nikhef and what are future scenarios?

## **Diversity**

Improvement of inclusiveness with the aim to install effective actions to improve the diversity and notably the gender balance.

## **Attraction of (scientific) talent to Nikhef**

How are we doing in attraction of talent, and does it need modernization?

## **Sustainability at Nikhef**
