Lot of outreach during the Asian PMA meeting.
Crisis management exercise probably needs to be pushed back since we planned to do a face-to-face test exercise.

Assurance Profiles
Dedicated VC on entity category, Jule is now resparking the REFEDS Assurance WG biweekly calls. Logos are work in progress. Uros is trying to attend the OIDC calls on identity assurance. Maarten submitted a similar abstract as the one submitted to ISGC2020 to NDN2020 which got accepted. Work in progress on paper. FAQ no updates.

SIRTFI
Incident response procedures for eduGAIN is work in progress by Marina, Romain et al.

AA operation guidelines
The eInfrastructure reps in AEGIS have provided feedback on the AARC-G048 AAOPS document. One comment was that the document is on the one hand (nicely) abstract and generalised, but at some points suddenly has very detailed instructions (no more than 24 hrs). See comments in the doc, put together from the AEGIS comments into a (new) Google doc:
https://docs.google.com/document/d/1-hbqSpQegm7UaC_wupFzFMm19Q024UPkG-8Jwokkmzc
Comments are welcome (target mid April)

Targeted advice on PDK implementation
Idea to write a guide for the PDK, based on risk profiles (and inspired by the "VO portal policy", see https://documents.egi.eu/document/80).
