

25th Symposium on Astroparticle Physics in the Netherlands, 25/26 March 2021, ZOOM

Thursday, 25 March 2021

Contributed talks (11:00 - 11:40)

time	[id] title	presenter
11:00	[30] Status of ETpathfinder	STEINLECHNER, Sebastian
11:20	[31] The LISA mission and the NL involvement	NELEMANS, Gijs

Contributed talks (14:00 - 14:20)

time	[id] title	presenter
14:00	[49] The Dutch involvement in the H.E.S.S. and CTA gamma-ray observatories	Dr VINK, Jacco

Contributed talks (14:50 - 15:10)

time	[id] title	presenter
14:50	[26] A new window to Axion-Like Particles from the upcoming CMB experiments	MUKHERJEE, Suvodip

Friday, 26 March 2021

Contributed talks (09:30 - 09:50)

time	[id] title	presenter
09:30	[42] First results from the AugerPrime Radio Detector	FODRAN, Tomáš

Contributed talks (10:20 - 11:20)

time	[id] title	presenter
10:20	[27] Multimessenger constraints on the neutron-star equation of state and the Hubble constant	Mr PANG, Peter T. H.
10:40	[44] A high-energy neutrino coincident with a tidal disruption event	VAN VELZEN, Sjoert
11:00	[45] First neutrinos with KM3NeT/ORCA	PESTEL, Valentin

Contributed talks (13:30 - 13:50)

time	[id] title	presenter
13:30	[43] Dark Matter Searches with the KM3NeT Neutrino Telescope	BASEGMEZ DU PREE, Suzan
