

25th Symposium on Astroparticle Physics in the Netherlands, 25/26 March 2021, ZOOM

Thursday, 25 March 2021

Update talks (13:00 - 13:30)

time	[id] title	presenter
13:00	[35] The Cherenkov Telescope Array: a new eye on the TeV sky	Dr ZANIN, Roberta

Update talks (14:20 - 14:50)

time	[id] title	presenter
14:20	[38] Detection of ultra-high-energy particles with the Pierre Auger Observatory and GRAND	GALEA, Cristina

Friday, 26 March 2021

Update talks (09:50 - 10:20)

time	[id] title	presenter
09:50	[39] Investigating the universe with gravitational waves: recent results and future prospects	PUECHER, Anna

Update talks (14:30 - 15:30)

time	[id] title	presenter
14:30	[47] Cosmic neutrinos: from meV to PeV	ANDO, Shin'ichiro
15:00	[41] Direct searches for Dark Matter	POLLMANN, Tina
