BND School 2022

- ☑ Thanks for the excellent work. It has been quite remarkable what you managed to do in just 10 days. Most of you worked very hard and many of the green science proposals are really at a totally comparable level.
- ☑ We hope you did learn something from this grant writing experience and of course we hope you had fun time with your colleagues/friends

☑ We looked to the following lines in order to score the proposal:

- ▶ Is the idea feasible?
- ▶ Is the allocation of money reasonable considering personnel, travels and equipment?
- ▶ Can your idea profit society or other fields and how?

Now: Which group wrote the best proposal?

☑ Just a couple of remarks:

- ▶ Thanks for your behaviour, this surely made our organiser life much easier.
- ▶ We hope you had the opportunity to improve/expand your knowledge thanks to the lectures and that you had fun during the school and chances to socialise (that is indeed a very important part of the school)
