

The image features two decorative curved lines in the top corners, one on the left and one on the right. These lines are composed of multiple overlapping, semi-transparent bands in shades of light green and light blue, creating a soft, layered effect.

Afternoon DM session 3

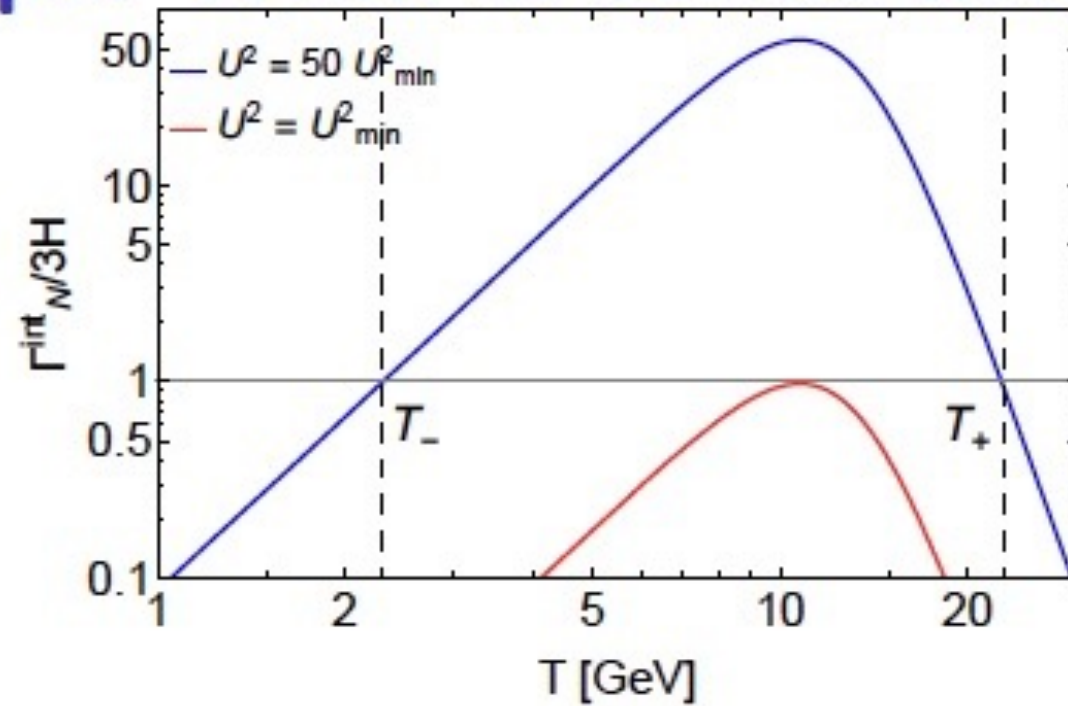

Wednesday

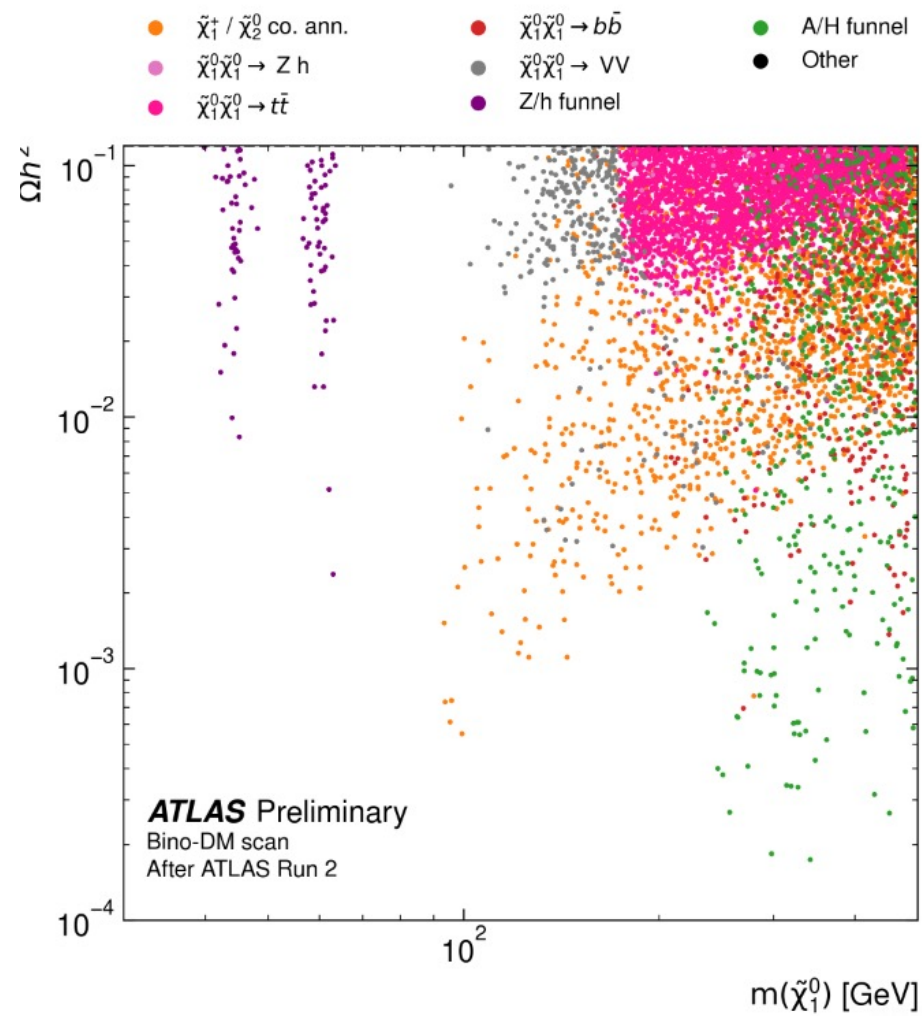

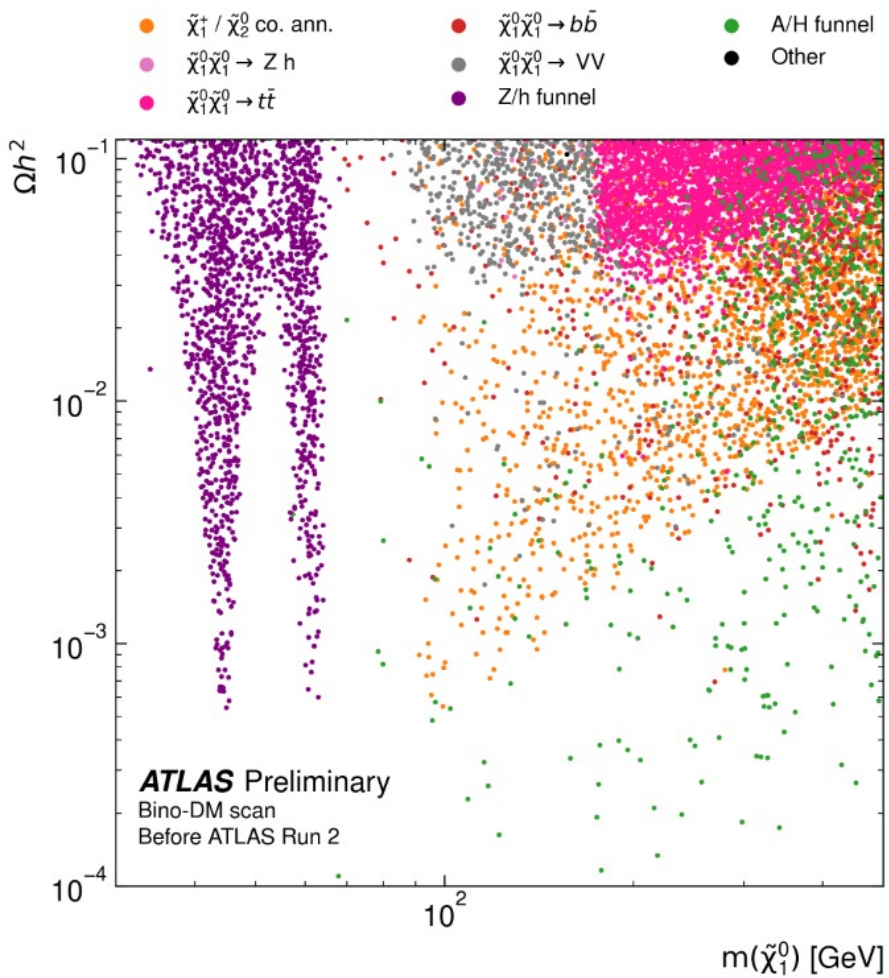

Group A

Example of super-WIMPs: sterile neutrino DM VII

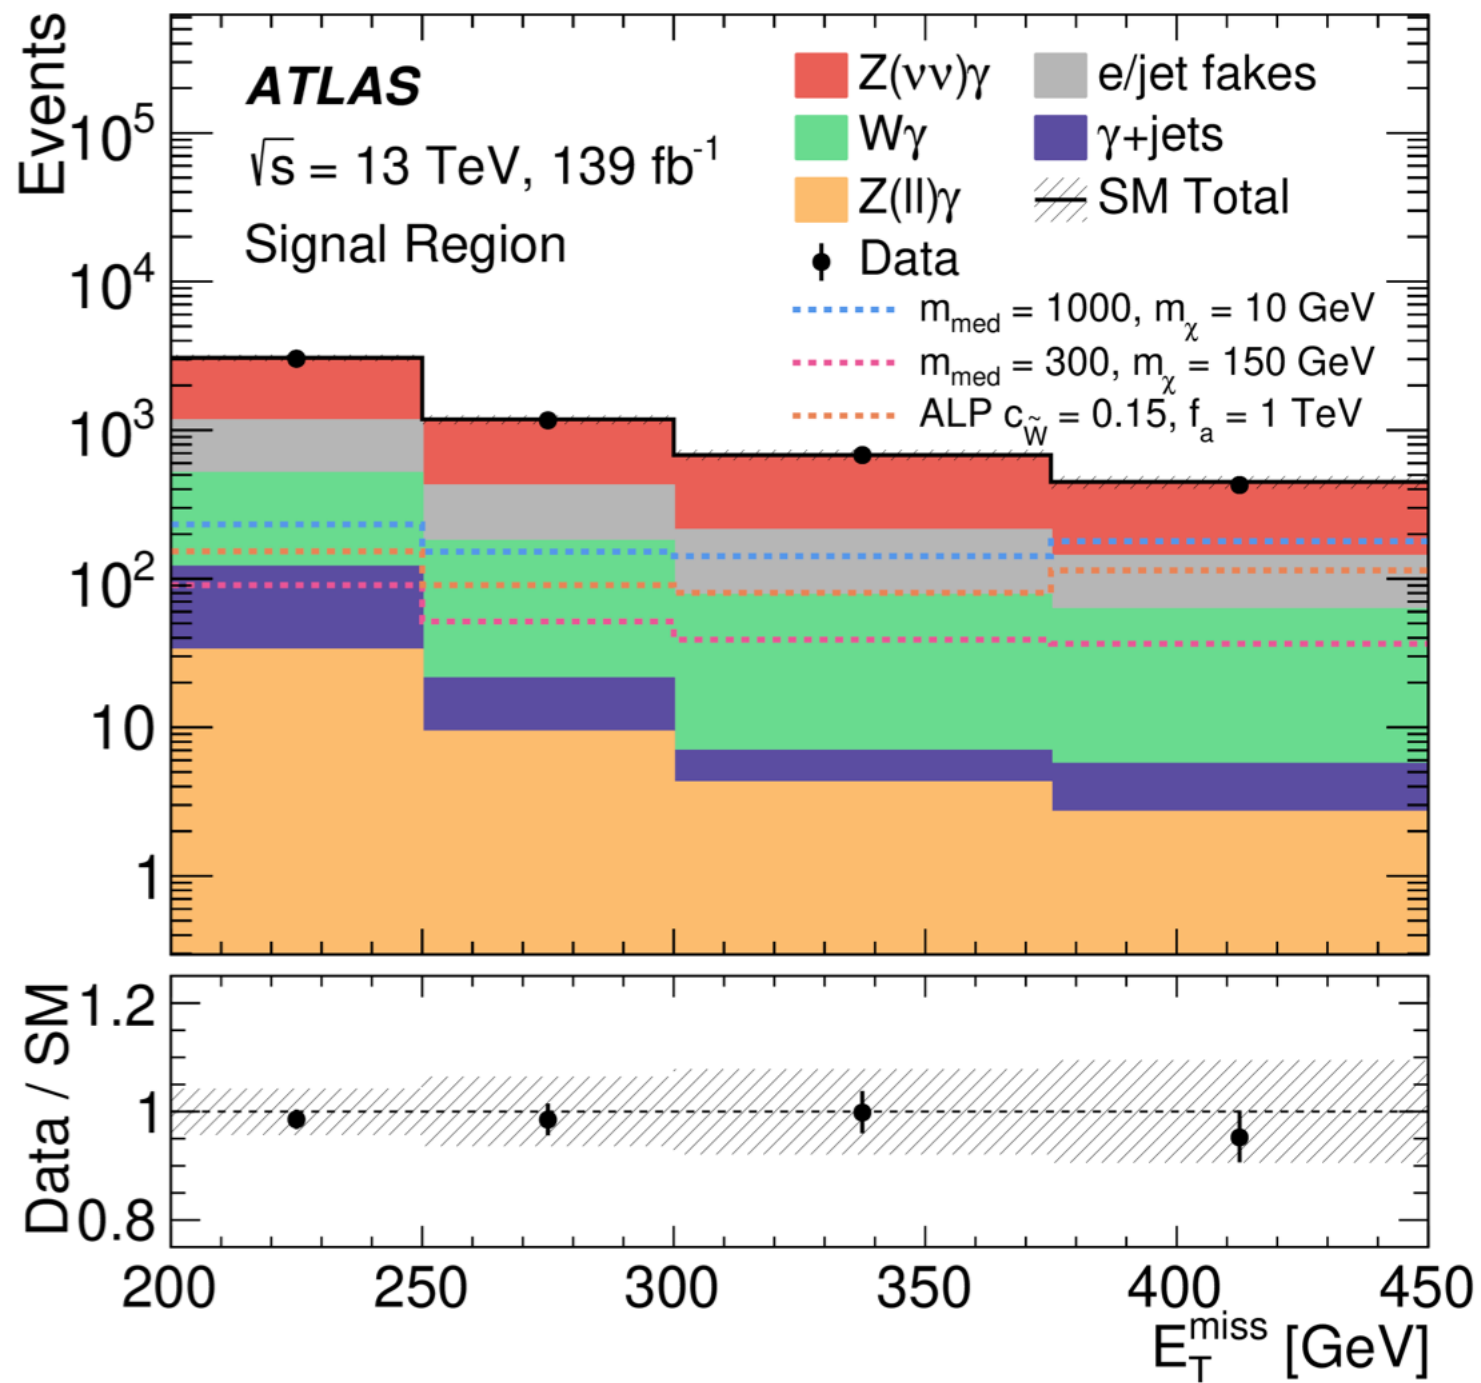

Group B

Group C

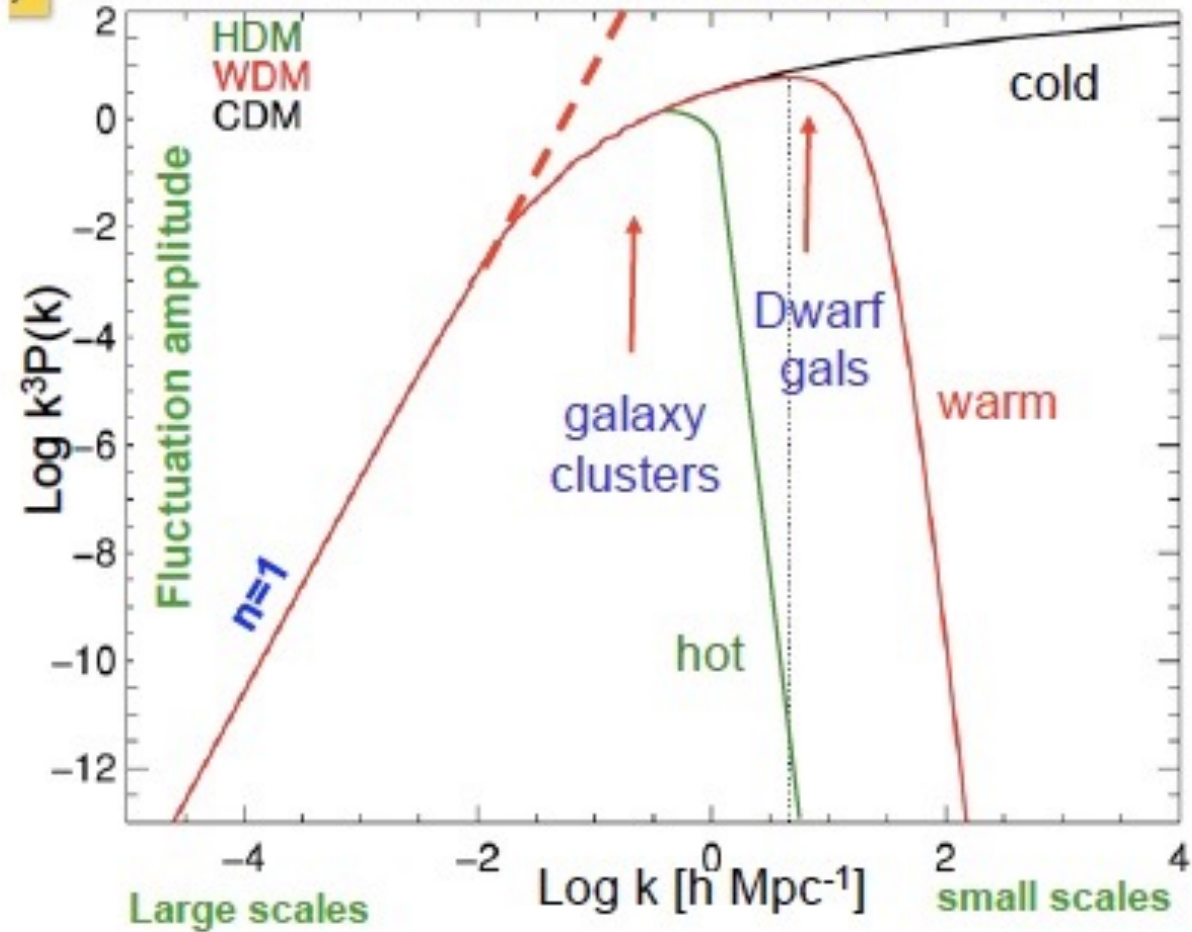

Group D

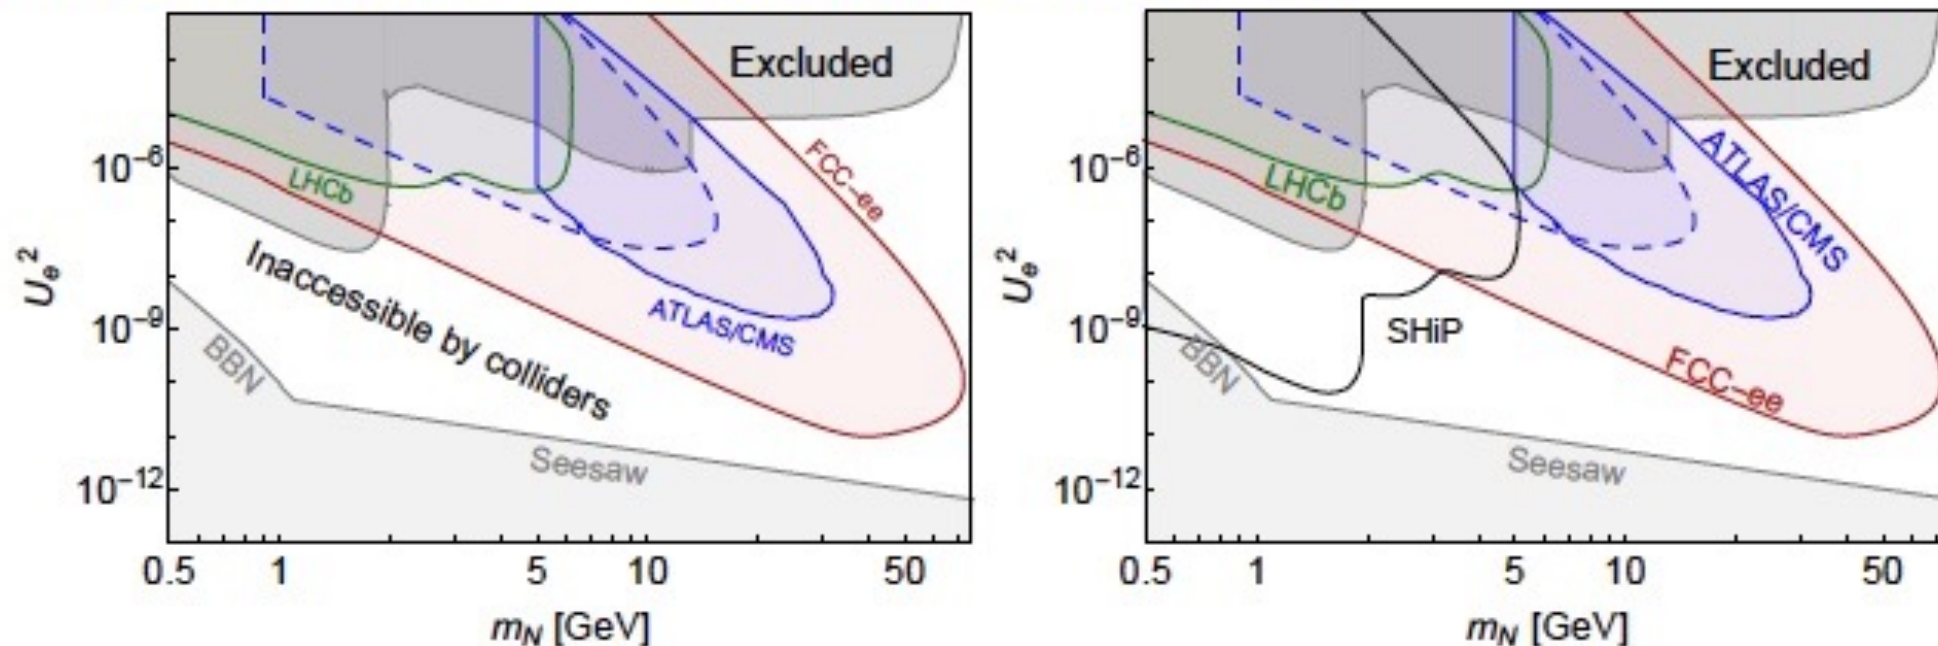

Group E

- ▶ relativistic particles **free stream** on smooth primordial inhomogeneities

) The linear power spectrum ("power per octave")

Sterile neutrino + Okkam razor III

- GeV-scale Majorana neutrinos may be explored at colliders (large masses) and beyond collider experiments (e.g. SHiP)
