

How to predict the future of energy in 5 easy steps

Friday, 8 November 2024 19:00 (40 minutes)

Energy system expert Auke Hoekstra seems to have a knack for predicting developments in energy technology. How does that work? Is it all just intuition or is there more to it? And are there reasons to be optimistic about our future? Join Auke to get a better understanding of future trends in energy. No crystal ball needed!

Presenter: HOEKSTRA, Auke
