

Summary of Session 2

Clara, Tristan, Gerhard

Nikhef Strategy Day

15th October 2024

Nikhef

 UNIVERSITEIT
VAN AMSTERDAM

Reminder

This was not a ranking exercise; it was a discussion exercise.

Having said that, it's interesting to look at the overall results.

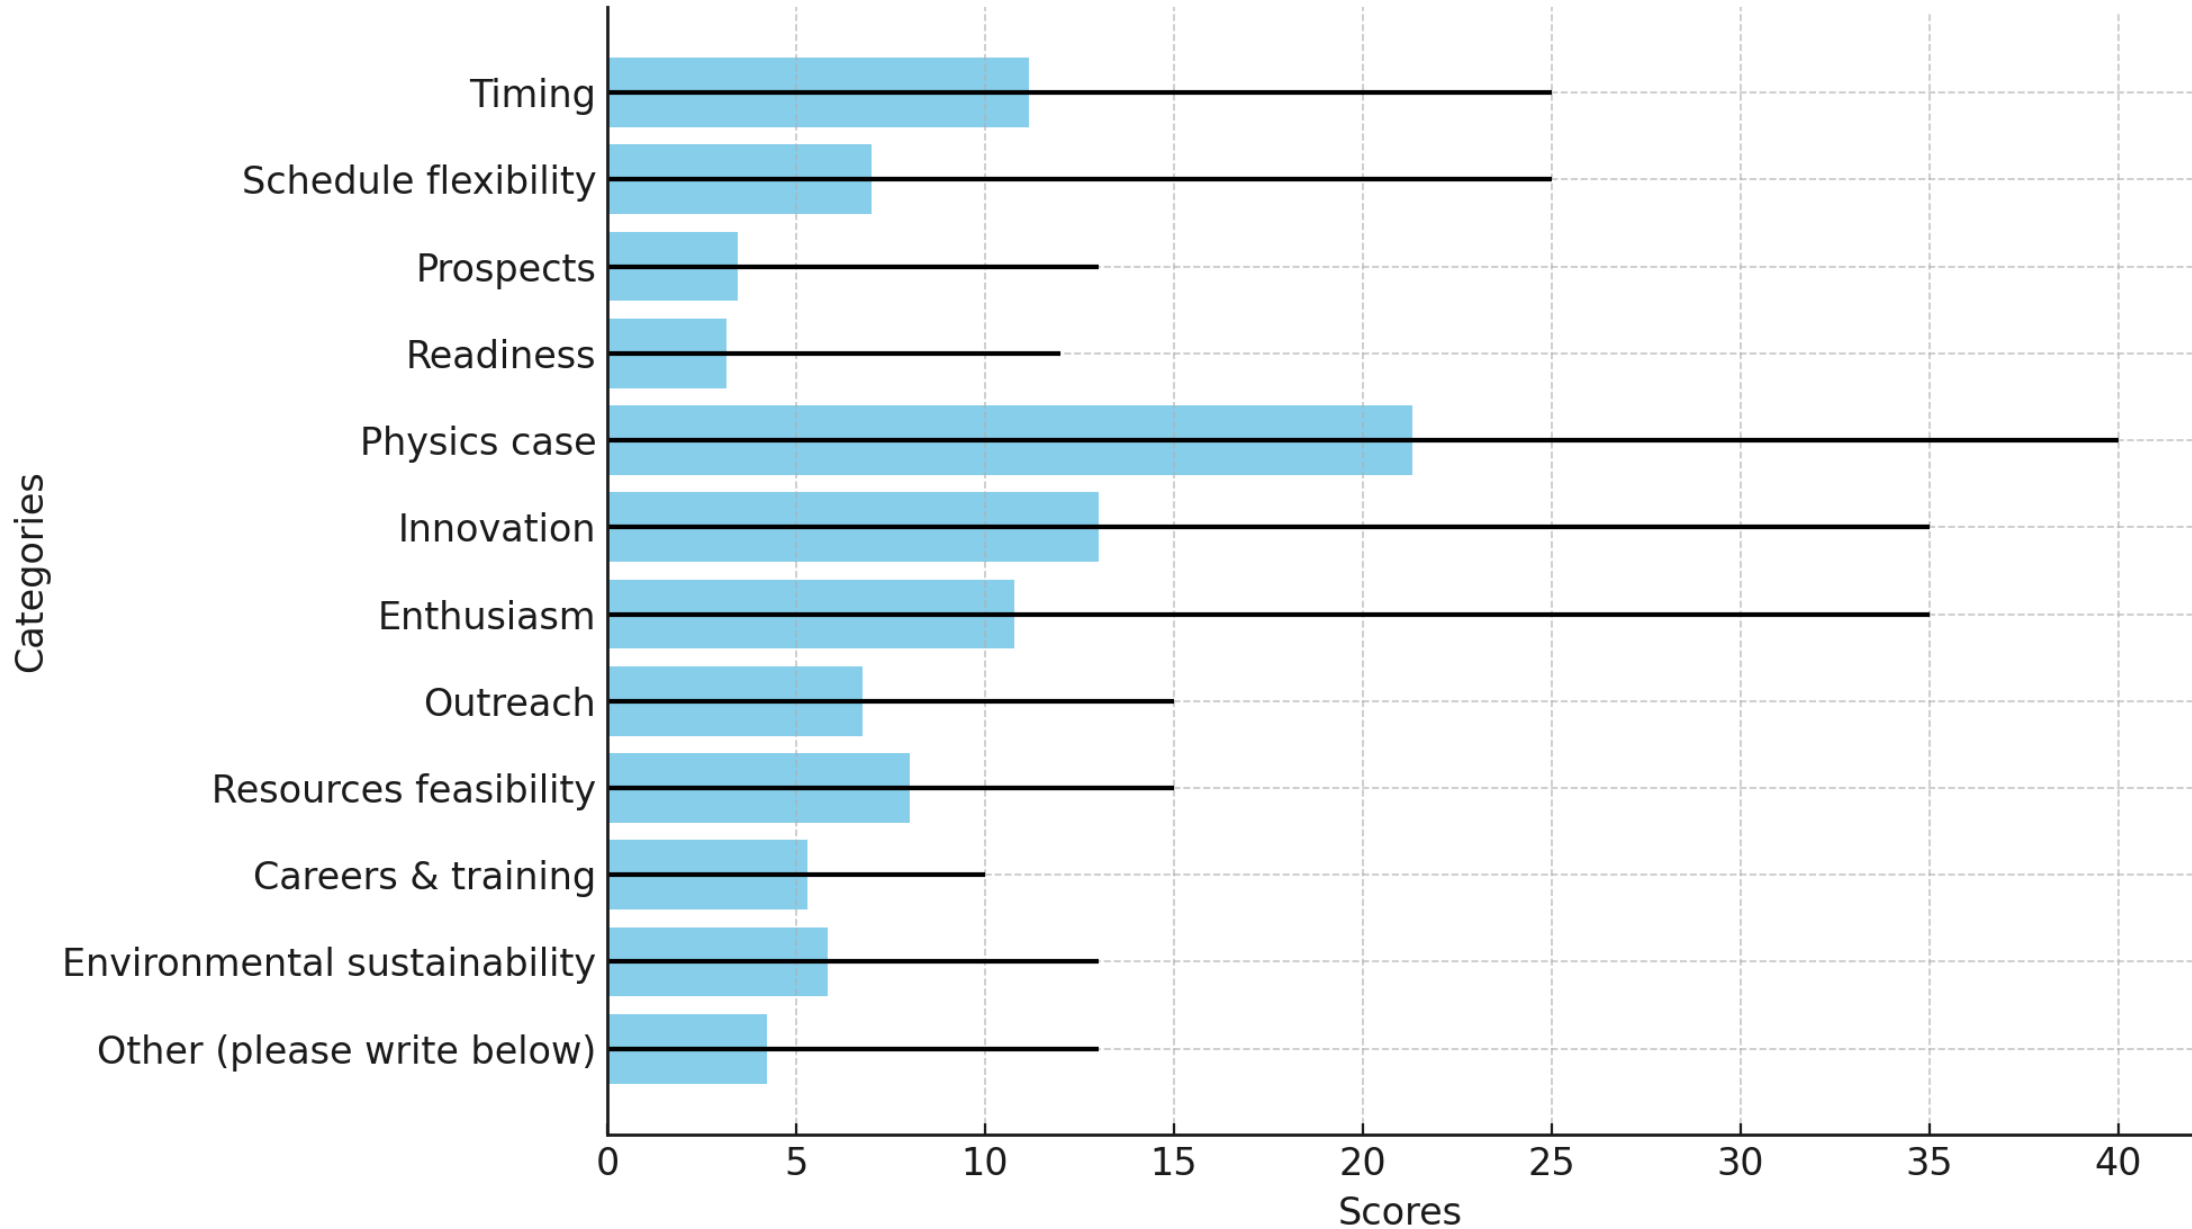

Please give your scores to the following:

Timing	0
Schedule flexibility	0
Prospects	0
Readiness	0
Physics case	0
Innovation	0
Enthusiasm	0
Outreach	0
Resources feasibility	0
Careers & training	0
Environmental sustainability	0
Other (please write below)	0
Total	0

13 teams gave their input

CONCLUSION

WHEN TWO APPLES COLLIDE, THEY CAN BRIEFLY FORM EXOTIC NEW FRUIT. PINEAPPLES WITH APPLE SKIN. POMEGRANATES FULL OF GRAPES. WATERMELON-SIZED PEACHES.

THESE NORMALLY DECAY INTO A SHOWER OF FRUIT SALAD, BUT BY STUDYING THE DEBRIS, WE CAN LEARN WHAT WAS PRODUCED.

THEN, THE HUNT IS ON FOR A STABLE FORM.
