

# Discussion Session 1: Your Thoughts on Professional Development Opportunities at Nikhef

# Small Group Discussion

---

Please consider the professional development support that you receive in your postdoc at Nikhef. This could include career guidance that you receive from a supervisor or other mentor, support for grant-writing, the opportunity to work on things that you believe contribute to your professional development, and many other aspects. With these things in mind, what is:

- 1) one thing you really like?
- 2) one thing you'd like to see improved?
- 3) one idea for improving it?

We will break you into small groups to discuss for ~15 minutes.
