

(Bayesian) Deep-stacking for high-energy neutrino searches

Monday, 25 May 2026 15:00 (15 minutes)

short summary (10 min) about the (interconnected) work published in “The promise of deep-stacking for neutrino astronomy” (<https://arxiv.org/abs/2501.10213>) and “Bayesian Deep-stacking for high-energy neutrino searches” (<https://arxiv.org/abs/2502.01452>).

Primary author: ACKERMANN, Markus (DESY)

Presenter: ACKERMANN, Markus (DESY)

Session Classification: Topical Sessions

Track Classification: Flux Modeling and Simulation
