

ANTARES

First all-flavour neutrino point-like source search
arXiv:1706.01857 submitted to Phys. Rev. D

Blue and red: selected ν candidates
Other symbols: catalogue sources
and IceCube sample.
Ellipse: galactic center

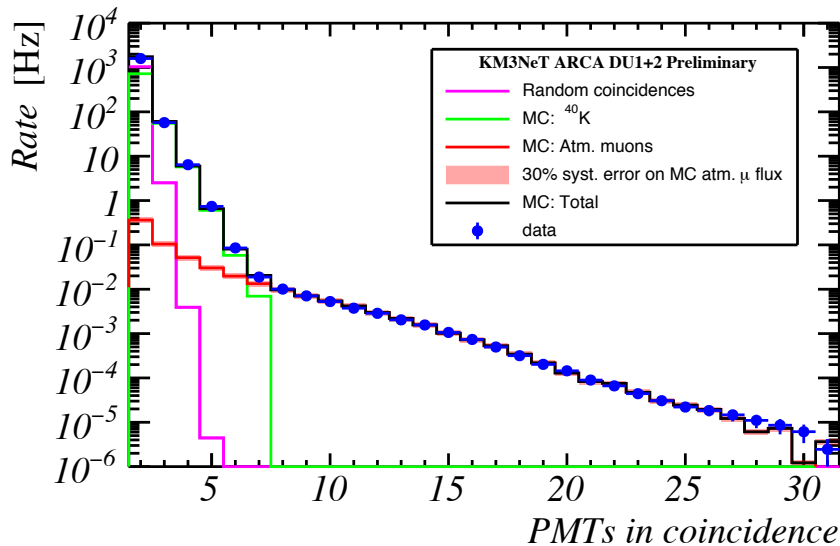

Limits on fluxes of individual
considered sources as a
function of declination

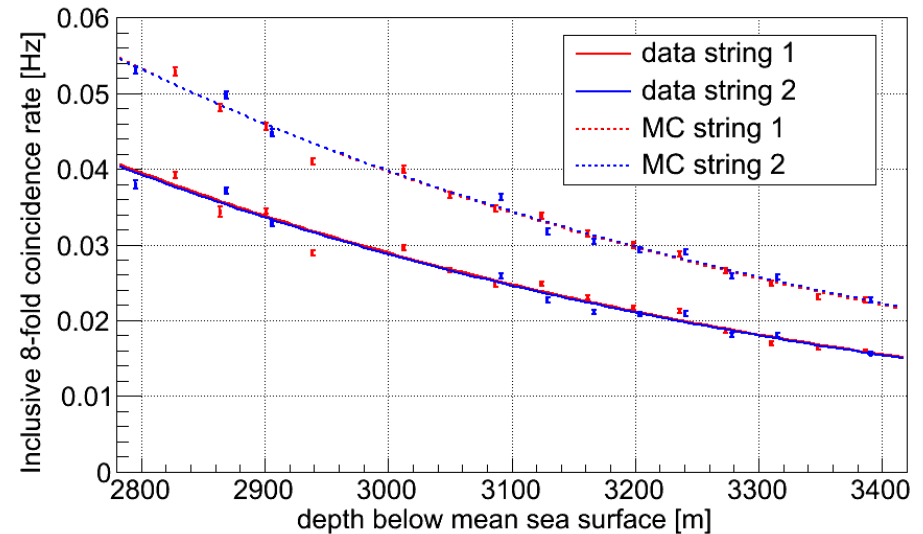

KM3NeT

Nikhef PhD students actively participating in commissioning of first two ARCA lines:

hit multiplicity

rate versus depth

Shown at ICRC (July, Busan, Korea)
Also a plenary talk by Aart

KM3NeT

May/June: 36 DOMs produced @ Nikhef (2 DUs)
October: to produce 36 more

**Big Milestone today and tomorrow:
deployment of first ORCA line!**
