

Physics Cafe

- irregular friday afternoon events in the Spectrum
- to bring together people from different Nikhef departments in informal setting
- platform for people to tell about work to a broader audience at fairly non-technical level
- usually 2 speakers/10 minutes each to talk about new result / new project / technical achievement
- drinks by PV
- satisfactory turnout ~ 50
- last year pilot → continue in 2017/18
- stage for younger staff to present themselves to institute at large
- next event: 29/9; Elena Petreska (theory) / Sean Benson (LHCb)
